Unlike cheaper versions, this tool is all metal (except for the handle grip and non-marring bumper), the three handle sections screw together so the 37" handle won't fall apart in use, and the large dust catchers hold the dirt and are easy to empty. The handle pivots down for a minimum clearance of 2.5" under furniture, and so you can store the tool in a narrow vertical space. A brush-cleaning comb snaps onto the handle to keep it where you need it at all times.

## MINI MICROFIBRE DUSTER

The mini duster head measures 6" x 8" to reach into all those hard to clean spaces like under the fridge and on top of the microwave oven. The easy grip handles have hanging loops at the ends for convenient storage. We like to have extra cleaning pads on hand to use while the originals are in the wash.

## CERAMIC DOG BOWL

T231.06 6" \$ 5.95

Our tester found that food was easily accessible in one of these low, wide food bowls. The bowl's weight made it stay put so he could really dig in without having to chase the bowl around the room. The depth of the water bowl kept most splashes inside, even during enthusiastic lapping after a run. The thick vitrified ceramic stayed cool indoors or in the shade. Each bowl is hand finished with embossing on the natural cane coloured exterior and has a medium blue glaze on the interior. These bowls are 6 inches in diameter with depths of 2 inches for food and 3 inches for water.

## ONION GOGGLES

AG1870

\$ 24.95

Eye protection technology meets kitchen practicality with this patented and innovative pair of Onion Goggles. Experts agree the best way to prevent painful eye irritation created by exposure to onion vapors is to wear contact lenses or goggle-type equipment when cutting onions. The comfortable foam seal blocks out irritating onion vapors and the slightly tinted and fog free lenses ensure maximum clarity. Say goodbye to tearing, stinging and irritated eyes when chopping, mincing, dicing or slicing onions. The key to these goggles, though, is they fit comfortably like glasses and can be removed just as easily. Fits most face shapes but should not be worn over glasses. The protective case (included) keeps them clean and scratch-free when not in use. Available in black.
